

COVID-19 Vaccine

What is a vaccine?

A vaccine is a kind of medicine. It comes in a needle or shot.

What does a vaccine do?

Getting a vaccine keeps you from getting sick. There are different kinds of vaccines for different illnesses or diseases.

Are vaccines safe?

Yes. Doctors and scientists work hard to make sure vaccines are safe. Only vaccines that are safe are approved to be used in Canada. The safety of vaccines is reviewed often.

Is there a vaccine for COVID-19?

Yes, there are a few new vaccines for COVID-19.

Which vaccine is the best vaccine?

All the vaccines are very good at reducing the risk of getting COVID-19. If you do get COVID-19 after you are vaccinated, the vaccine also reduces the risk of you getting very sick. Doctors encourage people to get the first vaccine they can get.

Are the COVID-19 vaccines safe? They were made very fast.

Yes. Doctors and scientists worked hard to make sure the COVID-19 vaccines are safe. Only vaccines that are safe are approved to be used in Canada. The safety of vaccines is reviewed often.

Can I get COVID-19 from the vaccine?

No. You cannot get COVID-19 from the vaccine. The vaccine helps your body recognize and fight COVID-19.

Are there side effects to the COVID-19 vaccine?

After you get the vaccine, you could have side effects. Your arm might be sore where you got the shot. You might feel tired or have a fever.

This means your body is responding to the vaccine. These side effects might last for a few days. Some people might be allergic to vaccines. They might have more serious side effects. These serious side effects are rare.

What if my symptoms last longer than a few days?

You could have caught a virus before you got the vaccine. If your symptoms last longer than one or two days, you might be getting sick. You should self-isolate (keep away from other people) and get tested for COVID-19.

When can I get the vaccine?

You can get it now. There are appointments available all over the province. You can call to book an appointment at 1-844-626-8222 (1-844-MAN-VACC). There are phone interpreters available in hundreds of languages that you can use when you book as well as at the supersites. You can get details at manitoba.ca/vaccine or protectmb.ca.

Do I have to keep wearing a mask and staying away from other people if I get the vaccine?
